10-second verdict

Guangzhou, Guangdong leads the current place portfolio

Compare Hangzhou, Zhejiang, Chengdu, Sichuan, Shenzhen, Guangdong, Beijing, Beijing, Guangzhou, Guangdong through five life themes, inspect the supporting map evidence, and use the trial questions before making a relocation decision.

Confidence

high confidence reflects independent evidence breadth, birth-time stability, and house-system agreement.

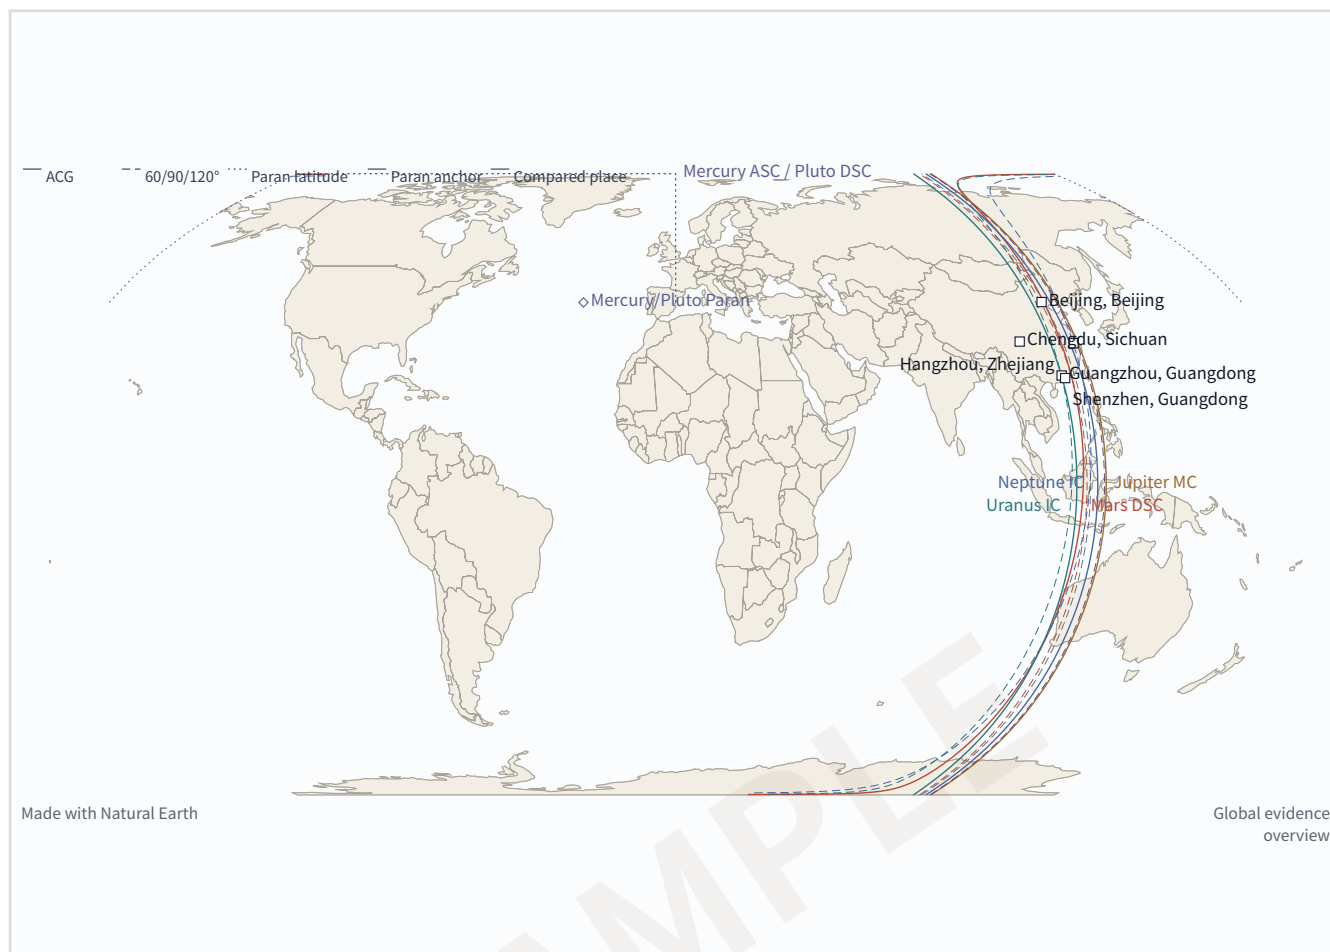

Place portfolio

Compare Hangzhou, Zhejiang, Chengdu, Sichuan, Shenzhen, Guangdong, Beijing, Beijing, Guangzhou, Guangdong through five life themes, inspect the supporting map evidence, and use the trial questions before making a relocation decision.

Guangzhou, Guangdong carries the clearest opportunity, but its caution evidence still needs a real-world trial.

Methodology

All conclusions are generated from one canonical Swiss Ephemeris calculation. Ordinary ACG, 60/90/120 angle-aspects, planetary Parans, Placidus and Whole Sign relocation, natal modifiers, and ± 5 minute sensitivity are scored with fact-group deduplication.

- Made with Natural Earth
- GeoNames data under CC BY 4.0
- Calculated with Swiss Ephemeris

Limitations

- Astrology is an interpretive decision aid, not a deterministic forecast.
- Map boundaries are generalized for report-scale display and are not a legal boundary source.
- Some conclusions change in the ± 5 minute birth-time test and should receive less weight.
